We are hiring, join now!

Düsseldorf, Germany | ID_502

That's us – feel the vibe!

IAM Global is disrupting the old-fashioned recruitment industry with a revolutionary approach based on Artificial Intelligence and Psychoanalysis. We're enabling businesses to make data-driven decisions when it comes to crucial hiring challenges, inducing productive, satisfying and long-lasting working relationships. Our team is fundamentally changing the way we think about job happiness and uses cutting-edge technology to truly make a positive impact in today's world of work. Eradicate gut feeling & slow, irational processes - data is making it happen. Together we are living the passion of creating a superior system that allows our customers to drastically reduce employee turnover, hiring effort and provides them with the pleasure of hiring in the 21st century.

We are fully-funded and have just launched our rocket. That's why we need smart people like you to take off and push the boundaries of what's possible – day by day.

Senior Data Engineer / Scientist
(m/f/x)

- Join as one of our first key hires in the data science team and build the foundations for a world class big data and ML solution.
- Take a leading role in the design and implementation our data analytics framework as the hearth and brain of our HigHR™ system.
- From the beginning you set the groundwork and structures to grow our data analytics into the leading neural network based ML system by 2025.
- Act out direct ownership and profit directly from our way to the top through VSOP, bonuses and other incentives. We are just getting started.

That's you – grow with us!

- An experienced data wizard, ready for a leading role to forge a gamechanger.
- Enthusiasm and hands-on mentality to build a well-funded tech venture.
- You don't need to check all the boxes, but here is what makes us swipe right:
  - Script and statistical application languages (e.g. Python, R)
  - Statistic modelling, (deep) ML algorithms - supervised & unsupervised
  - SQL & NoSQL databases (Apache Kafka / Event Streaming is a plus)

Let's get in touch, there is so much more to say!

No worries, we also have a great coffee machine and meet up for Thursday after-work drinks.
But one thing can't be swept under the carpet: **Be ready for the next level of team events!**

Feel free to reach out via // **apply@iam-global.de** // or // **+49 (0) 211 972663 – 12** //

Direct contact.
